PART OF RUMANIANS SHOWING MORE ACUTE

TENTON FORCES STILL ADVANCING

MORE THAN 6,000 PRISONERS
WERE TAKEN BY INVADERS
IN YESTERDAY'S FIGHTING ON
EASTERN FRONT.

(The Associated Press.)

BULLETIN—DEC. 6 (3:30 P. M.)—
BERLIN REPORTS BUCHAREST
CAPTURED BY THE GERMANS.

The plight of the Rumanians continues acute with no signs of a stand by either the Rumanians or Russians. Although Turkish reports last night claimed the Tontons were within eight miles of Bucharest, their chief thrust being toward Focsi, north-west of Bucharest, with the apparent hope of cutting off the Rumanian retreat toward Moldavia by their airroad.

The Tontons' forces have advanced toward the railroad running northward from Bucharest to Focsi, and the Rumanians to evacuate their position north of Stala, says the German war statement. South of Bucharest the Tontons have occupied the town along the Alt river and advanced to the westward. More than 6,000 prisoners were taken yesterday.

The Russian attacks in the Carpathians north of Tartar Pass and along the Ladora river failed, says the statement. In the Trous valley the Russians have advanced to the German front line. North of Oltus Pass the Tontons have captured the Russian position.

The Petrograd report says that the Rumanians retired in the Tergovistes and Focsi sections and along the Tergovistes railway, and declared that the Tontons had been driven back at other points.

Paris announces further Serbian and French successes in the Grunishles region of Macedonia, and the development of violent artillery battles north of Monastir.

The British cabinet crisis is still acute, dispatches show, with indications pointing to David Lloyd-George as the man through whom it may be solved. One dispatch said Lloyd-George had been summoned by the king to the customary proceedings when a statement is to be asked to organize a ministry. Reports from different sources say that Andrew Bonar Law, whom the king asked to form a ministry after Asquith had resigned, has declined.

WORK ON BEACH STREET RESUMED

AFTER SUSPENSION OF SEVERAL
DAYS BECAUSE OF MATERIAL
SHORTAGE, WORK COMMENCES
AGAIN.

The work of laying the asphaltic-concrete pavement on the east side of South Beach street, which has been delayed for several days because of a shortage in materials, was resumed Wednesday morning. At noon today a strip of asphalt had been laid from the end of the car tracks in front of the Howard Transportation company's dock north to the Burgoyne casino. The usual gang of men and the steam roller are engaged in the work, which will be continued as rapidly as possible until both sides of Beach street are finished for the winter traffic.

At present the one side of Beach street which is in use, is far from adequate for the passing vehicles, during the busy part of the day. There is hardly room for three cars to pass at the same time. All auto owners are glad to know that relief will come soon.

RAILROADS NOT ADEQUATE, SAYS SEN. FLETCHER

WASHINGTON, Dec. 6.—The railroads of America have not kept pace with the transportation needs and the improvement of waterways should be carried forward as a sound economic policy, said United States Senator Fletcher, of Florida, in addressing the National Rivers and Harbors congress here today. LARGE AUDIENCE HEARS ORCHESTRA

MANY WORDS OF COMMENDATION
HEARD FOR MUSIC IN THE
CASINO BY TUCKER'S ORCHESTRA.

A mid-season audience greeted Tucker's orchestra at the Casino Burgoyne at both the afternoon and evening concerts yesterday. Many words of commendation for the quality of the music was heard among the audience, and it is the general opinion that the orchestral music will prove extremely popular with the visitors.

The orchestra is somewhat handicapped just at present by a shortage of music. It seems that a trunk filled with music, which was forwarded from New York by express, has some way or other become misplaced enroute. Telegraphic tracers have been sent, however, and the music will probably arrive in a day or two.

The hours of the afternoon concert are from 2:30 to 4:30, and the evening concert from 8 to 9:30. There will be no Sunday evening concert, but the Sunday afternoon concert will be held at the usual hours.

WIFE-BEATER GETS 90-DAY SENTENCE

In police court this morning before Judge H. T. Titus, Melvin Morris was sentenced to 90 days' labor on the city streets on the charge of being drunk and disorderly and committing an assault on his wife. He is a local workman in the employ of L. C. Leonard and pleaded not guilty.

Wade Reed, of Seabreeze, who drives a large car for livery, pleaded guilty to exceeding the speed limit and was fined \$50.

Judge Titus openly stated in court that speeding on Daytona's streets will most certainly be stopped if there is a possible way to do it. The maximum fine will be imposed on every speeding case brought up in the near future.

MEMBERS OF CREW ARRIVING
IN NEW YORK BROUGHT NEWS
OF THE SINKING OF AMERICAN
SHIP.

(The Associated Press.)

NEW YORK, Dec. 6.—The steamship John Lambert, carrying a crew of 16 Americans and listed as an American vessel, was shelled and sunk without warning by a German submarine, 25 miles south of the Isle of Wight, Nov. 22, according to members of the crew who arrived here today on the French liner Aspasie from Bordeaux.

The John Lambert was the last of 12 vessels built on the Great Lakes which the line had agreed to purchase and was being taken to Havre for delivery when sunk, according to the statements of members of the crew. Engineer Edward Harrison said that the first knowledge of the submarine was when it came through the Lambert's bridge. The shelling continued while the crew was taking to the boats. The men rowed 40 miles to the French coast. It is probable that the United States will immediately ask Germany's version of the affair.

MCCORMACK CONCERT IN JACKSONVILLE POSTPONED

Information has recently been received by interested persons in this city that the McCormack concert which was to have been given in Jacksonville on the 18th of this month has been indefinitely postponed through the orders of Mr. McCormack's physician on account of a throat affection. This is a source of disappointment to quite a number of Daytonians who were planning to attend the concert.

TYPHOON FAN IN OPERATION ON ROOF OF ARCADE BUILDING

The typhoon fan in the roof of the Arcade building was started Tuesday and has been attracting much attention, which is its purpose as it is to be used for advertising purposes. The fan is propelled by the passing breeze while those being installed in the Arcade hall and theatre will be operated by electric motors.

Judge and Mrs. W. H. Schofield, of New York City, came to Daytona Monday evening and are pleasantly located for the season at the Edmund Miller apartments, corner Palmetto avenue and Cedar street. This is their first visit to Daytona and they were induced to come here by Mrs. Nellie Couch, who spent last winter here and is again at the Miller apartments in company with her mother and cousin, Mrs. Duell and Miss Hoag.

Couldn't Tell.

The following is being told by a
lawyer who employs a young lady as
a typist and secretary and recently
handed her a batch of letters to an-
swer for him. Among these was one
asking if he could inform the writer
of the state of health of Mrs. H—, and
also her present address. The
lady secretary replied as follows:
"Dear Madam: In reply to your letter
of yesterday's date, I am unable to
give you Mrs. H—'s address, as re-
quested. She died on the 31st and
was buried on the 22d inst."

SUPERINTENDENT OF ROADS MAKES MONTHLY REPORT

At the regular December meeting
of the board of county commissioners,
held at DeLand Monday, the road su-
perintendent reported that the grading
on the John Anderson highway from
No. 9 to Smith Creek draw bridge, to
the width of 20 feet had been finished.
Two hundred and sixty-eight yards of
shell were used in repairing and re-
paving the road, and 85 yards of sand
in making the fill through the marsh.
The work was done with convict labor.

The draw bridge at Smith Creek
was damaged by the breaking through
of a heavy truck. It was repaired
temporarily, and the repairs will be
made permanent as soon as it is pos-
sible to close the bridge for two days.
Lumber for repairs is now on the
ground.

Needed repairs have been made on
the road between Holly Hill and
Ormond.

Sand has been hauled and grade
finished from Mount Ararat east,
through hammock, using convicts,
teams and trucks.

The DeLand-Daytona road is re-
ported in bad condition, and repairs have
already been begun. Permission has
been asked to continue the same, with
authority to hire a few teams for the
purpose.

Lumber has been received for the
Tomoka bridge on the Ormond and
Volusia road, and the repairs will be
made as soon as possible.

Good progress is being made on the
DeLeon Springs-Garden shell road.

The Perfect Nail.

The perfect nail ought to be white
and naturally polished, transparent
without being too thin, slightly pink
and not brittle, smooth to the ends of
the flanges. Such are the nails of
these possessing refinement, correct
natural taste and tact.

Early Discouraged.

JEWELRY STORE ENTERED:

FIFTEEN WATCHES STOLEN
While N. S. Daniels, who conducts a jewelry store at 142 Second avenue, was attending the Elks' memorial service Sunday evening, his store was broken into and fifteen watches were taken from a box which contained about thirty of the timepieces. Mr. Daniels estimates the value of the stolen watches at \$50 and says the most valuable watch in the box was overlooked by the thief, who entered by breaking the glass in a rear window so that the fastener could be turned and the sash raised. Mr. Daniels says he thinks he knows the guilty party.

Appropriate Name.

It is entirely proper that the world's most southern city, located in northeast Tierra del Fuego, in latitude 55, should bear a name sounding as much like winter wind as Ushuala. There is also an appropriate suggestion of walling in the word, and the penal settlement of Argentina is located there.

Save His Nerves.

To give the baby a quiet disposition, the first step is to keep him free from nerves. One mother accounted for her baby's peaceful frame of mind by saying that until he was three months old he was ignored! That seems absurd, yet there is an element of truth in it. A baby is an excitable little being. It wants to play and be played with, and it means real self-denial on the part of the household to refrain from kissing and cuddling and romping with the baby.—Ladies World.

Pope Benedict Urges Relief Needy Belgians

(The Associated Press.)

BALTIMORE, Md., Dec. 6.—A gift of ten thousand lire, about two thousand dollars, from the Apostolic See of Rome, around which the children of America are urged to build a large fund for further relief of the children of Belgium, is announced in an autograph letter from Pope Benedict to Cardinal Gibbons, made public here today. The Pope has been moved in his appeal to American children by a recent report from Herbert C. Hoover, chairman of the Commission for Relief in Belgium, describing "the pitiable situation of numerous Belgian children who, during two sad years, have been suffering from the lack of that proper nourishment necessary to sustain the tender existence of budding childhood." The letter, concluding with the pontifical benediction on the church in America together with the message by which Cardinal Gibbons is transmitting the appeal to the bishops, follows:

CARDINAL'S RESIDENCE
408 N. Charles St.
Baltimore.

December the 4th, 1918.

Right Reverend and Dear Bishop:

I am sending you, herewith enclosed, a translation of an autograph letter addressed to me by His Holiness the Pope, through which he makes a most earnest appeal for the little suffering children of Belgium.

The Holy Father has written this letter at the solicitation of Mr. Herbert C. Hoover, chairman of the Commission for Relief in Belgium, which is the only regular channel by which relief can enter Belgium, and which enjoys the full confidence of His Holiness.

I have no doubt that the extraordinary and touching appeal of His Holiness will be honored by generous contributions, which will cheer His paternal heart and bring seasonable joy and comfort to the little sufferers of Belgium.

Arrangements have been made by which the money collected or its value in food will be distributed by the Commission for Relief in Belgium.

If I may presume to make a suggestion, I respectfully propose that the most efficient and prompt way to relieve the afflicted little ones would be obtained by a general collection in your jurisdiction or by any other means your prudence would suggest. I will be most happy to forward to the proper authorities the offerings

of your Diocese sent to me, later on, to have published a list of such donations.

With sentiments of the highest esteem, I am,

Faithfully yours in Xto.,
(Signed) J. CARD. GIBBONS,
Archbishop of Baltimore.

To His Eminence, James Cardinal Gibbons, Archbishop of Baltimore.

My Lord Cardinal: Profound compassion of a father has again moved our heart, when we read an important letter recently sent to us by the distinguished chairman of the praiseworthy "Commission for Relief in Belgium," describing in few words, yet showing proof of most terrible reality, the pitiable situation of numerous Belgian children who, during two sad years, have been suffering from the lack of that proper nourishment necessary to sustain the tender existence of budding childhood.

In most moving terms the chairman has described how so many desolate families, after having given everything humanly possible to give, now find themselves with nothing left with which to appease the hunger of their little ones.

He has made us see, almost as if they were passing before these very eyes, dimmed with tears, the long file, continuously increasing, of Belgian infants waiting for their daily distribution of bread; unhappy little ones whose bodies, emaciated by lack of proper nutrition, bear not infrequently the impress of some deadly sickness brought about by their failure to receive the food which children of their age require.

In his letter the chairman has told us how, in order to ward off so much illness, his commission, displaying the very best of good will and stopping at no sacrifice, has arranged for the distribution to the children of a daily supplementary meal. He sorrowfully adds, however, that unhappily owing to insufficient means, the commission has found itself unable to prepare and supply such extra food to all the babies who have read of it.

In this emergency the worthy chairman has turned his thoughts and his heart to the millions of children of your happy, noble, America, who, in the abundance with which they are now surrounded, could they be given an exact idea of the pitiable and unfortunate condition of their little fellow-creatures in Belgium—more especially if an appealing and encouraging word might reach them from us—would not hesitate a moment to co-operate heartily, in accordance with some prearranged plan, to come promptly to the relief of these needy Belgian babies.

In view of this condition of affairs, we have considered the work indicated so humanitarian and so holy that, in prompt compliance with the appeal addressed to us by those who are directing the work of the commission, we have decided to approve and recommend it, as we hereby do endorse it most heartily by these words to you, My Lord Cardinal, and through you, to the illustrious members of the American Episcopate, to the clergy and to every generous heart; but particularly to those children of America upon whom is based every hope of success for the plan devised by this beneficent institution.

Neither do we doubt, in truth, but that the happy children of America, without distinction of faith or of class, at this approach of another winter which it is announced will be even more severe and painful than the two preceding years, will vie in their innocent pride, with each other to be able to extend to their little brothers and sisters of the Belgian nation, even though across the immense ocean, the helping hand and the offerings of that charity which knows no distance.

The words of our Divine Redeemer: "As long as you did it to one of these My least brethren, you did it unto Me," (Matthew xxv, 40), so appropriately brought to mind in these circumstances, are a sure pledge of heavenly pleasure and reward; while we feel likewise, how greatly, in this period of atrocious fratricidal carnage, even in the eyes of the world, are ennobled the people of more fortunate lands by the performance of true and loving deeds and by the pouring of a little balm upon the wounds of those less fortunate.

In the full faith that Your Eminence efficaciously aided by all, according to their means and strength, will do as much as may be in your power to favor this initiative, the proof of the loving interest which we have for its successful outcome, we send to you enclosed our contribution of ten thousand lire, which gift, if it be inadequate to the needs of the occasion and appears slight in itself, is not however such, when one considers the condition of this Apostolic See in the present unhappy moment.

At the same time, while being particularly happy to represent upon this earth that Jesus who was the Divine Friend of little children, we invoke from our heart upon all those who shall second and aid this noble and delicate undertaking an abundance of blessings and heavenly rewards, of which is a pledge the Apostolic Benediction which, with very special affection we impart to you, My Lord, Cardinal, to your two colleagues in the Sacred College, to the bishops, clergy and to all the faithful of the United States.

(Signed) BENEDICTUS P. P. XV.

DEMONSTRATION AGENT REPORTS MUCH SUCCESS

The report to the county commissioners of R. E. Lenfest, county agent in charge of the farmers' demonstration work, for the month of November as submitted to the board of county commissioners, shows that a very successful beginning of this important feature has been made. Mr. Lenfest began work on November 1st, and on the 3d the exhibit of the Corn and Canning clubs work was scheduled for Lake Helen. This meeting was largely attended and was successful in every way, showing that Miss Summers has done splendid work in directing the efforts of both clubs.

Dr. H. Logan, U. S. veterinary agent, held three meetings during the month, at which he addressed the stock men on points pertinent to their interests, besides meeting many of them personally.

A demonstration of the use of hog cholera serum, planned for the 15th at Mr. Burgess' place, was prevented by rain, but 17 farmers came out in spite of the rain, and an interesting and

profitable time was had. Dr. Burgess answering many questions and giving out information on various points of interest to the business.

Many calls have been made on farmers and business men, getting acquainted with the people, perfecting the organization and generally emphasizing the importance of co-operation. The outlook for the future is very encouraging, the farmers demonstrating by their attendance and interest shown their appreciation of the importance of the work.

Little Plea for the Rich.

History, even in recent times, shows as a matter of hard fact that wealth is not flagrantly misused. Bacon, in slyly warning his readers against those who pretend to despise riches, remarks that no people make worse use of riches when they acquire them. And that inexorable test would be no more merciful if it were applied today. Those who condemn the rich would beyond question do more harm with wealth to themselves and others than is done now by a rich class, of whom the greater part have inherited certain responsibilities, inseparable from their fortune, or have developed a self-restraint in the very process which laboriously built up their capital.

FOR THE
COUNTY FUNDSVOLUNTA COUNTY BANK OF DE-
LAND WILL BE CENTRAL DE-
POSITORY—FUNDS TO BE DI-
VIDED.

Beginning January 1st the office of county treasurer will be abolished, and the county funds will have to be deposited with some bank within the county. In order to formulate a suitable and satisfactory plan for the division of these funds, a meeting of the bankers of the county was held at the court house in DeLand on November 28. At this meeting Messrs. R. H. Wood of the Volusia County bank and D. E. Tatum of the First National bank of DeLand, were appointed a committee to devise a plan that should be equitable and fair to all the banks of the county. This committee reported in favor of distributing the funds among the various banks of the county in proportion to the taxes paid by each, and recommended that the Volusia County bank be designated as a central depository, which should make all reports to the county of depositions, and furnish all required securities, without cost to the other institutions, except when it shall become necessary for them to furnish a surety bond, in which case each bank should share the expense on a basis of the amount of their deposits.

It is left optional with the central bank as to the amount of security required from the other banks for the funds deposited with them. On the above basis the funds will be distributed as follows:

Volusia County bank, 40 per cent.
First National bank, DeLand, 12 per cent.
First National bank, Daytona, 8 per cent.
East Coast State bank, 5 per cent.
Fidelity bank, 5 per cent.
State Bank of New Smyrna, 5 per cent.
Bank of Lake Helen, 5 per cent.

The funds are to be distributed weekly by the central bank with the idea of keeping at all times its proper amount with each bank in the system.

The above plan was recommended to the county commissioners by the bankers meeting Monday evening, and adopted by them in the following resolution:

"The offer and guarantee of the Volusia County bank to become the county depository for the county funds, disbursed by the board of county commissioners, that is to say, the general revenue fund, the fine and forfeiture fund, and the road and bridge fund, be and the same is hereby accepted, and said Volusia County bank is hereby designated as the county depository for said funds, and the said Volusia County bank is hereby ordered to make satisfactory deposit with this board of a surety bond for the sum of \$5,000 in federal, state, county or municipal bonds in like amount. Condition for the sale keeping and accounting for said funds."

On motion the clerk was instructed to prepare and have printed the necessary books and blanks for the carrying into effect the law creating county depositories.

Duke William's Favorite Town.

William the Conqueror's favorite town was Caen (in Normandy), where he and his duchess, Matilda, who defied the canon law by marrying within the forbidden degrees of consanguinity, did royal penance by building two great abbeys, whose churches of St. Etienne (St. Stephen) and La Trinite contribute so greatly to Caen's beauty today. William's church of St. Etienne, stark and bold and lofty, most wonderfully represents his indomitable spirit, and ideas. The smaller, richer and more delicate Trinite is no less characteristically feminine a monument to Duchess Matilda. Another memorial, an insignificant single stone in a pretty, forgotten, flower-strewn byway of the old Protestant cemetery, marks the spot where Beau Brummel, the man who for all time made "exclusive propriety" in dress the standard, lies in oblivion beneath the waving grasses of this Norman hillside.—*Author Stanley Riggs, in the National Geographic Magazine.*

MEETING AT THE CASINO

Mass meeting of the visiting tourists took place at the casino Tuesday afternoon at 3 o'clock. More than 50 interested men and a few women were present. Many voiced their opinions on the question of purchasing the pier and casino, and after Mr. J. E. Williams had been heard from, the group decided to call another assembly at the casino next Friday night.

Mr. J. E. Williams will entertain a party of six at a theater party to Daytona tonight.

GENERAL SUPT. OF BUFFALO Y. M. C. A. MAKES SHORT VISIT

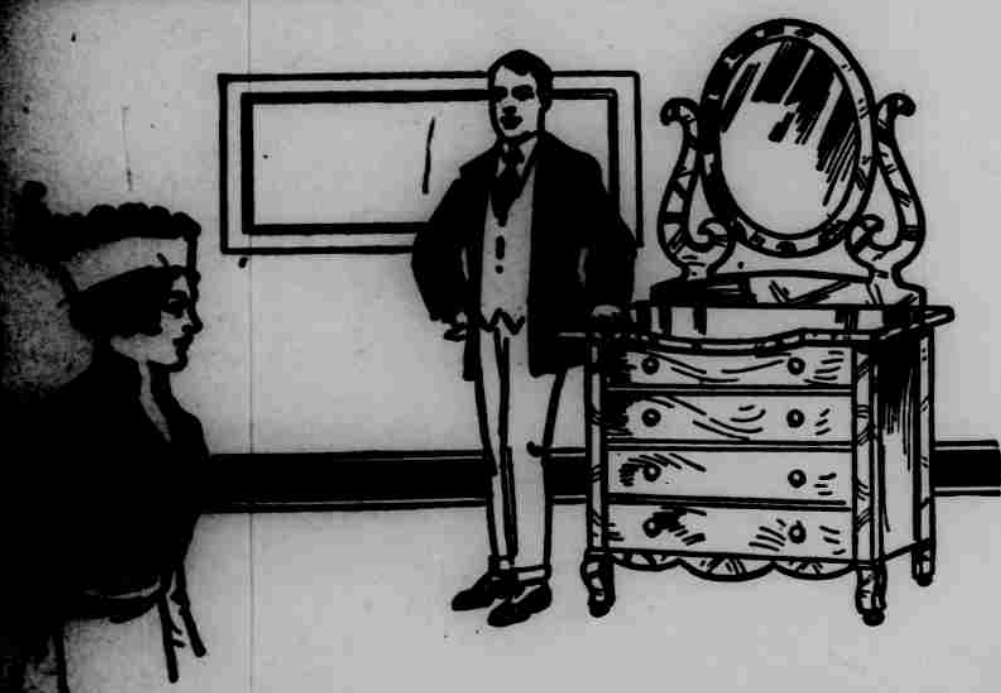

General Superintendent A. H. Jones, of the Y. M. C. A., of Buffalo, N. Y., accompanied by Mrs. Jones, left Tuesday afternoon for the home in Miami and Mr. and Mrs. J. M. Treglow and Mr. and Mrs. J. E. Young on Halifax avenue, Daytona Beach.

Mr. and Mrs. Whitford have enjoyed their visit to the beach before, having stayed here for two weeks last winter. Mr. Whitford addressed a large church on one evening and hopes to come the same privilege later in the next season.

Mr. Whitford is a well-known Y. M. C. A. man of New York state. Through his efforts, Billy Sunday was obtained "clean up" Buffalo during the months of February and March, 1917, for the great revivalist finishes Boston. After accompanying Mrs. Whitford to their winter home in Miami, Mr. Whitford will return to Buffalo where his active work demands his presence.

Recognize Superiority. In Yellowstone park, the brown bear retreats hastily from the hotel guests when black bears leave the night, and the latter, in turn, promptly get themselves gone at the approach of the silvertips. It is an interesting little social system, established on the primordial basis of fear.

Not the Real Thing. "You needn't get the idee," bawled the Irishman to another, "that jist is you have a flannel mouth, you pull th' wool over me eyes!"

PRESIDENTS WHO WERE HUNTERS

Fifteen of the Nation's Chief Executives Were Partial to the Sport.

CLEVELAND LIKED DUCKS

Colonel Roosevelt a Shooter of Big Game on Three Continents—Wilson Takes to Quail—Lincoln's One Experience.

New York.—President Wilson intends to do a little hunting this fall and has taken out a hunting license in Virginia. In hunting in Virginia he is following in the footsteps of a number of his predecessors, writes Alexander Stoddard in the New York Sun.

The hunting presidents of the United States number 15, one more than those who indulged in fishing.

The hunting presidents of the United States include the first and present presidents, also Thomas Jefferson, Andrew Jackson, Thomas Tyler, Zachary Taylor, Franklin Pierce, James Buchanan, Abraham Lincoln, Rutherford B. Hayes, James Abram Garfield, Chester Allan Arthur, Grover Cleveland, Benjamin Harrison, and last but not least, Theodore Roosevelt.

It might not be amiss to point out that of the 15 hunting presidents, the following indulged in fishing also: Washington, Tyler, Pierce, Lincoln, Garfield, Arthur, Cleveland and Roosevelt.

Two of them wrote books devoted to hunting: Cleveland, who left a book devoted to fishing and hunting, which he called by the modest title "Fishing and Shooting Sketches," and Roosevelt, who has written any number of books, for one of which he received a dollar a word for every word in it. Incidentally it might be remarked that it was not a losing venture for the publisher.

Washington was fond of hunting foxes, deer, turkeys and ducks; Jefferson, foxes, deer, turkey, 'possums and 'coons; Jackson, deer and turkey; Tyler, Taylor and Arthur, deer; Pierce, 'coons; Buchanan, quail; Lincoln, turkey (on one occasion only); Hayes, turkey; Garfield, ducks and quail; Cleveland, quail, duck, rabbits and shore birds; Harrison, quail and Wilson, quail.

Roosevelt Greatest Hunter.

The greatest of all hunting presidents is Colonel Roosevelt, who has hunted on three continents and has killed almost every species of big game. He has one rifle, now a retired veteran, which he regards as not heavy enough for steady use on heavy game, "but it is so handy and accurate, has such penetration and keeps in such good order" that it has been his chief hunting rifle for the last dozen years.

Washington, who was the largest, tallest and strongest of the presidents, Lincoln not excepted, was an enthusiastic fox-hunter. He rode with the hounds everywhere, was always in at the death, was fond of shooting wild turkey and ducks and on his last hunt in 1785 he killed a buck weighing 143 pounds.

Jefferson liked the fox chase and without leaving his father's land he could shoot turkey, deer, foxes, 'possum, 'coons, quail, squirrel and rabbit.

Jackson's shooting at one period of his life came from necessity, the household needing meat for the table. Deer, wild turkeys and smaller game were numerous in those days.

As a young man Tyler did much hunting, and Taylor delighted in roaming through forests and over prairies for days and nights seeking game.

Pierce liked to take long tramps and never went without his rifle. In addition to having wonderful powers of endurance, Buchanan was an expert shot and made it a point to kill all small game through the head.

Lincoln as a Hunter.
Lincoln's hunting was confined to one day's sport. More accurately, a few minutes' fun. In fact, he did not move far away from where he lived to get his first and last wild turkey. He shot it from his cabin home.

Following is the curious autobiography written entirely in the third person which Lincoln prepared for his friend:

"A few days before the completion of his eighth year, in the absence of his father, a flock of wild turkeys approached the new log cabin, and Abraham with a rifle gun, standing inside, shot through a crack and killed one of them. He has never since pulled the trigger on any larger game."

Hayes, like Buchanan, was also an excellent shot with the rifle. Garfield liked to fish and invariably carried a gun with him for ducks. He was also fond of quail shooting.

Arthur, who was one of the best fishermen of the presidents, was so devoted to hunting that Emperor William presented him with a beautiful gun. While president he hunted in the Yellowstone country.

Like Cleveland, Harrison liked to go duck shooting in Chesapeake bay.

Cleveland was devoted to duck shooting. From the moment that ducks were reported flying south Cleveland was eager to get first word of conditions, and he could sit in a sink box or blind for hours waiting for a shot.

to give publicity to the law governing the width of tires to be used on county roads, and take such steps as may be necessary to enforce the same. J. A. Said line to be constructed under the supervision of the county commissioners, all poles to be on the same side of the road, a distance of 15 feet from the center of the road, and the wiring to be at least 18 feet from the ground.

The Three Philosophers.
For the first time in their lives three genuine, simonpure philosophers went out riding in a motor car. After they had ridden about twenty miles out in the country the car broke down. Said the first philosopher: "I have long wanted to study certain aspects of nature, and this affords me the particular prospect I most admire." Said the second philosopher: "I observe there is a farmhouse over there where food can doubtless be obtained in sufficient quantities." Said the third philosopher: "I have long wanted to be in a situation where, without moving, sustenance would be brought to me by one friend, while the other discoursed on the beauties of Nature."—Life.

Always Tagging Round.
A child, whose mother had endeavored to impress upon her tender mind the fact that God was ever in her presence, became annoyed at the cat one day for following her about the house. Stamping her little foot and shaking her tiny finger in defiance at the poor cat, she said: "Now you go back—it's bad enough to have God tagging me wherever I go without you doing it, too!"—Zim, in Cartoons Magazine.

Wherein the Profit.
"Is there any profit in selling postage stamps?" inquired the man in search of information. "Not directly," replied the druggist, "but it gets people into the habit of going to the drug store, and after that it doesn't take long to make chronic invalids of them."—Kansas City Star.

Grandmother's Bonnet Is Still In Vogue

WORN with a quaintly cut frock of silk, deep caped, this fascinating bonnet comes in a figured velvet, tiny pink roses on a gray background. The tall crown is strapped with its tie strings, a bunch of metal roses adorning one side. This makes a chic matinee hat.

MUSIC AND PICTURES

through the phonographic records, we can have our favorite singers and musicians in our own homes. While we soon tire of the popular airs, the really good music grows dearer with each repetition and we find ourselves growing to love the symphonies, nocturnes, and grand compositions of the musical masters. So it is with art. Few of us are able to visit the great art galleries of the world and fewer still to own a great painting. But, thanks to the art of printing, photographing and engraving, we are able to become

When Nails Loosen.

Deafness sends this hint: As soon as a picture nail driven in a wall gets loose and the plaster begins to break around it, it can be made solid and firm by the following process. Saturate a bit of wadding with thick glue, wrap as much as possible around the nail and reinsert the latter in the hole, pressing it home as strongly as possible. The nail will thus be firmly fastened in its place.

If you are weary after a fatiguing day, on reaching home take ten minutes' rest lying prone on the back. When you rise cleanse the face with cold cream, rubbing lightly across the lines and in an upward direction to correct sagging of the muscles. A cloth wet in very hot water should then be applied, followed by several applications of cold water. You will be surprised to find yourself quite rejuvenated.

MEDICAL SOCIETY ELECTS OFFICERS

DR. F. J. WALTER, OF DAYTONA RE-ELECTED AS PRESIDENT—NEXT MEETING TO BE HELD AT DELAND.

The most successful meeting ever held by the Volusia County Medical society, which comprises in its membership practically all of the physicians of Volusia county, was the one held Tuesday evening at the palatial new home of Dr. Frederick J. Walter in this city.

The business session was occupied almost wholly by the election of officers for the ensuing year, and resulted in unanimously re-electing Dr. Frederick J. Walter as president. Dr. W. C. Chowning, of New Smyrna, was elected vice-president, and Dr. L. C. Ingram, of Deland, secretary and treasurer. The delegates named to the meeting of the State Medical association are Dr. J. M. Masters, Port Orange and Dr. John Reeve, of Deland and Dr. C. C. Bohannon, of Daytona.

At the close of the business session the time was devoted to papers on the various phases of "Senility." This was led by an interesting paper by Dr. Graham E. Henson, of Jacksonville, secretary of the State Medical society. Dr. Henson also took occasion to compliment the Volusia County Medical society as being one of the foremost county societies of Florida and he spoke in glowing terms of the work it had accomplished for the benefit of the medical profession and the general public.

After a number of papers had been read the assemblage repaired to Cattaneo's grill, where, as the guests of Dr. Walter, a magnificent course dinner was served. At the table the continuation of the papers was taken up, each guest of the association discussing his particular subject intelligently and interestingly.

Those who were present were: Dr. L. B. Bouchelle and W. C. Chowning, of New Smyrna; Dr. J. M. Masters and Dr. H. K. DuBois, of Port Orange; Dr. M. P. Guy and Dr. J. P. Esch, of Daytona Beach; Dr. John Reeves, Dr. John McDairmaid, Dr. G. A. Davis and Dr. Ingraham, of Deland; Dr. J. E. Arwings, Dr. J. A. McGunagle, Dr. C. C. Bohannon, Dr. Dean T. Smith, Dr. H. L. Merryday and the host, Dr. Frederick J. Walter, of Daytona; Dr. Graham E. Henson, of Jacksonville, was the guest of honor.

The next meeting of the association will be held at Deland in January.

Nothing Good or Bad.

There is nothing either good or bad, but thinking makes it so.—Shakespeare: "Hamlet."

Look Over Obstacles.

Anyone who rides a bicycle or runs a motor car knows that the way to go straight and avoid obstacles is to look past them down the road. By looking at the obstacles, one steers right into them in spite of oneself. So in life, when obstacles are ahead, one should look past them, keep the eye on the right road, and so win past and forward.

Col. W. E. Loden, of the United States Engineers, Jacksonville, came to Daytona Monday afternoon to make an inspection of the concrete bridge at Spruce creek, complaints having been made by Hattie P. Johnson and C. M. McDonald & Son that the bridge had been lowered three feet, making it impossible for even small boats to pass at ordinary tide and not even at low tide.

Col. Loden was accompanied to the bridge by Mr. Johnson and Cecil I. McDonald and T. J. Murray, county commissioners in whose district the bridge is located, was also one of the party.

Johnson and McDonald are greatly concerned over this obstruction to water travel on Spruce creek. Fortunately Mr. Johnson, who has charge of J. E. Gamble's grove on Spruce creek and travels to and from that place by boat. Petitions are being prepared for the filing of objections to present conditions at the bridge and Messrs. McDonald and Johnson urge all interested persons to join with them in the effort to have the matter corrected.

Spruce creek, although not so much exploited as the Tomoka river, is an equally picturesque stream and affords another interesting boat trip for visitors, so that its obstruction is indirectly of interest to the people of this city and vicinity.

Time!
Motoring, riding and walking all cause errors in watches. A man who motors, takes a ferry, then a train, and finally walks will find his Sunday-go-to-meeting time on the same watch is much slower than weekdays.

Thrift Propaganda.
The thrift propaganda undoubtedly will have the effect of making many people take greater care of their dimes and nickels. When the latter multiply into dollars the will power for saving dollars will have been formed in a way parallel to that by which physical strength came to the Greek hero who began by lifting a calf and lifted it every day till it became an ox.

What is a Weed?
According to Webster's Standard dictionary there are two definitions of a weed: 1. Wild growth in the nature of rank grass, undergrowth, or the like. 2. Any plant growing in cultivated ground to the injury of the crop or desired vegetation, or to the disfigurement of the place; an unsightly, useless or injurious plant. The following note is added: A weed is a plant that is not wanted. There are, therefore, no species of weeds, for a plant that is a weed in one place may not be in another.

Always an Excuse.
The corner policeman found Naybur leaning against a telephone pole one night. "Well, well, how'd you happen to get into this condition?" he asked as he helped Naybur home. "Wifeah just left fr vacashn," explained the patient. It was just a night or two later that the same policeman found Naybur leaning against the same pole in the same condition. "What's the excuse this time?" asked the cop. "She's back," answered Naybur.

ENTRANCE TO DEPOT WILL BE OPENED

Plans are under way for another marked improvement at the F. E. C. railway passenger depot in the opening up of an entrance from Magnolia avenue. The out building, which now obstruct the way will be removed and a roadway hard surfaced from the station to Magnolia avenue in the near future. When this is completed it is proposed to have all vehicles pass through from one entrance to the other in order to prevent the confusion and congestion which arises from their backing and turning within the grounds.

This improvement will come close by after that of the installation of flush toilets in the passenger depot and the incidental renovation of the waiting room, the repainting of the building, etc. The toilet rooms, as well as the waiting room are electric lighted and a re-arrangement of the lights in the ticket office is a marked advantage. The waiting room has been made more attractive than ever before and will be very comfortable, especially after the return of a number of the big chairs which are being re-upholstered and repaired.

The flower garden established on the depot grounds last summer by a committee of Daytona ladies was, unfortunately, greatly damaged by the heavy rains of a few weeks ago, but is beginning to recover and with proper care will soon again become a beauty spot which will attract the attention of visitors and passengers on the trains.

Good Furniture Polish.
Mix equal parts of boiled linseed oil, turpentine and vinegar in a bottle. Shake well each time before using. Apply with a woolen cloth, then polish with a dry cloth. This makes all marks and scratches disappear and furniture look like new. It is very inexpensive and is better than the best furniture polish on the market.

Hoosier

HINGED DOORS OR ROLL DOORS

The Famous Christmas Offer
\$1 Ever Bought

This special Christmas offer on the famous 'Hoosier Beauty' cabinets means that every home can now afford the Hoosier and never miss the amount. The price fixed at the factory is \$38.50—the only cabinet on the market that has not gone up.

We will deliver the Hoosier into your kitchen for a single dollar. We will let you pay the balance at \$1.00 a week—only 5 cents a meal. Your money all back if you are not delighted.

Saves Miles of Steps, Saves Hours of Time, Cuts Work in Half

With the Hoosier you can sit down comfortably with a big, uncluttered table-space to work on. Above and below are places for 400 different articles all within arm's reach!

It brings you 40 great inventions that save you time and toil and make your kitchen work delightful.

Six of the very important are these:

1. The All-Metal Glass Front Flour Bin—easy to fill, easy to clean—no springs or mechanical devices to stick or get out of order.
2. The Gear-Driven Shaker Flour Sifter which is attached to the bin—sifts flour four times as fast as any ordinary sifter—makes flour light and fluffy—absolutely sanitary—cannot grind grit or dirt through the sieve—fully covered by Hoosier patents.
3. Scientific Arrangement—articles needed most frequently easiest reached.
4. Revolving Caster that brings the Spice you want to your finger-ends in an Air-Tight, Neatly Labeled Crystal Glass Jar—the final touch of convenience.
5. The Ingenious Big-Capacity Sugar Bin—holds more than twice as much as most other bins—and is the only one in which it is equally convenient to scoop sugar from the top or draw it from a spout at the bottom.
6. Hinged Doors with Handy Trays that hold small utensils or your choice of the New Roll Doors without extra cost.

NEVER EASIER TO BUY THAN NOW
Now is the season when there is much baking and cooking. Now is the time when women will find the Hoosier the greatest helper in the kitchen. And every woman has a right to it—so why postpone the purchase—why sacrifice your health and strength—when \$1 down and \$1 weekly is all you need to pay if you act quickly. The new models are ready, come at once and let us demonstrate them. Whether you buy or not, we will enjoy explaining the Hoosier's attractions, praised by 1,000,000 women. Come today.
